DT04 Rec'd PCT/PTO 12 OCT 2004

D-80298 Munich

Germany

March 4, 2004

Re.: International Patent Application PCT/EP02/04477

Our ref.: FI/Wa PAT 00293 PCT

In the matter identified above new claims are enclosed for submission to the files. These claims replace the originally filed claims which have been valid to date.

In the new claims the binders have been restricted to those containing allophanate groups.

Accordingly the newly submitted claims have not been extended as compared with those originally filed, and ought therefore to meet the requirements of the PCT.
